

XCP SERIES

The **WATERAX** XCP Series is a full line of reliable and durable control panels specially designed to easily operate the **WATERAX** vehicle mounted pumps.

All **WATERAX** control panels are equipped with FastWire™ connectors that provide ease of installation via a simple plug and play system.

WATERAX also offers a Low Pressure Protection (LPP) system that protects your pump end against costly damages caused by running dry.

MCP MINI CONTROL PANEL

Designed for OEMs who want a cost effective remote mounted solution, the Mini Control Panel offers all the basic functionality including a Vernier throttle, low oil light, choke cable, pressure gauge, and LPP system.

PMSCP PANEL MOUNT STANDARD CONTROL PANEL

Designed for OEMs who want to integrate their control panel into their fire apparatus panel enclosure, the Panel Mount Standard Control Panel is the ideal solution. It also comes with a provision for a primer, and an optional Low Pressure Protection, Glow Plug Timer and High Water Temperature Warning Light.

WCP WATERAX CONTROL PANEL

Designed for OEMs who want a complete remote mounted solution the **WATERAX** Control Panel offers a maximum of features, namely an hour meter, a large pressure gauge, an energy efficient LED panel light, an LPP system and optional level monitors, LED work light and electric primer.

All XCPs also come with a comprehensive installation instruction that significantly reduce the installation time.
